Serving Together to Promote Church Library Ministry

About the Event

Virginia Church Library Association, established in 1958, is an independent and self-sustained organization for workers in church library ministry for all denominations. Its purpose is to encourage and assist churches to develop church libraries, to provide training opportunities for workers and our regional advisors are available for assistance in starting or revitalizing a church library. Our training conferences twice a year also allow workers to network and support one another. This training event for church librarians is planned and hosted by the Virginia Church Library Association. **Please share this with anyone interested in church library ministry.**

Individual memberships, conference fees and occasional special projects provide funding for the organization's work. Consequently, it is essential that interested persons become members and attend conferences so these services can continue and keep this ministry alive. Please visit our website, www.vacla.org for additional information regarding the organization, this conference and helpful links to other related sites and organizations.
